

5th International solar fuels conference

1-5 September 2025, Newcastle, United Kingdom

Including a programme for early-career researchers
1-2 September 2025

Themes

- Inorganic photocatalysts and photoelectrodes**
- Organic photocatalysts and photoelectrodes**
- Electrocatalysis for sustainable fuels and chemicals**
- Biological and bioinspired solar fuels approaches**
- Advanced methods for the study and discovery of Solar to X materials**
- Devices to deployment**

Key Deadlines

- | | |
|---|-----------------|
| Oral abstracts deadline | 24 March, 2025 |
| Poster abstract deadline | 23 June, 2025 |
| Early bird registration deadline | 21 July, 2025 |
| Standard registration deadline | 11 August, 2025 |

Speakers include

- | | |
|--|--|
| Kara Bren
University of Rochester,
United States | Erwin Reisner
University of Cambridge,
United Kingdom |
| Andy Cooper University of
Liverpool, United Kingdom | Beatriz Roldán Cuenya
Fritz-Haber-Institut der
Max-Planck-Gesellschaft, Germany |
| Sophia Haussener
École Polytechnique Fédérale de
Lausanne (EPFL), Switzerland | Xinchen Wang
Fuzhou University, China |
| Osamu Ishitani
Hiroshima University, Japan | Peidong Yang
University of California, Berkeley,
United States |
